<u>Memo dated 01/11/2021</u> from Dave Schley - <u>Proposed Ordinance Amendment</u> - Village Center Standards in the PUD-5 Zone

Township Planner Dave Schley reviewed his 01/11/2021 memo to the township committee outlining a request from S/K Allen Road Associates for amendments to various zoning requirements applicable to the Highlands Village Center in The Hills. His review included recommended changes to the Township's Ordinances and additional explanation for those requests he believed were either not needed or should be left to the Planning Board, including their review of the Township's Master Plan for such items as breweries, distilleries, and wineries. The Township Committee members agreed with the proposed ordinance amendments, thanked Mr. Schley for his work, and directed Clerk Pisano to place on an upcoming agenda for introduction.

DEP Model Stormwater Control Ordinance for Municipalities - Tom Timko

Township Engineer Tom Timko stated that the DEP is updating their municipal requirements for stormwater control and highlighted certain features. One significant change is that stormwater design standards will now be cumulative and may prove difficult and costly for individuals to adhere to. In addition, green infrastructure will now be required which again may prove costly. Timko will draft a revised Ordinance for introduction at the next township committee meeting.

Highlights:

- Other than a brief period from April 8 to May 13 where non-essential construction was ordered to cease by Executive order, construction activity has been above average.
- Our office continued to provide services through the shut down by working remotely. Our staff worked staggered days with split teams in the Township performing inspections, permit review and issuing permits throughout the period.
- Construction Department staff fully returned to work on May 26 in order to keep up with the increased volume of activity.
- During the network disruption the software vendor worked along with our IT Department and hosted our
 permit software remotely allowing our department to continue to function seamlessly whether working from
 home or in the office.
- We have enhanced our web services.
- All our permit handouts on the township web site include fillable PDF's of the correct forms for the project the customer is planning.
- For the first time we are offering on-line inspection requests through the SDL Portal. Customers can request inspections 24/7 and choose from 3 dates. Our staff then schedules the inspection and the customer automatically receives notification of the scheduled day for their inspection. Limiting "phone tag" back and forth
- We are also launching on-line permit applications through the SDL Portal, which will greatly enhance the customer experience as well as limit submittal of incomplete applications.
- Due to some regulatory changes to the code, I will be submitting some revisions to the construction code fee ordinance in the next few weeks.
