

Internet Service Survey for Bernards Township Residents

On January 5, 2021 the Bernards Township Committee established the Bernards Township Utility Advisory Task Force to, among other things, assess the level of utility service in the Township and identify areas of concern and in need of improvement. To help us do that, the Task Force has developed an internet service survey for residents to complete. Once we receive and evaluate the survey responses, we will report our findings and recommendations to the Township Committee. If you would like to participate, please click the following link to complete the survey:

Thanks for your support in improving internet service in Bernards Township.

Scott Guibord, Chairman
Bernards Township Utility Advisory Task Force
