Waste Oil Drop-off Procedure

Unfortunately due to a multitude of unlabeled hazardous household waste that have been deposited in the waste oil container at 277 S Maple Ave., the drop off procedure required modification.

We recommend that residents utilize Somerset County for any and all Household Hazardous Waste disposal at the designated drop offs throughout the year.

In an effort to continue to provide convenient waste oil recycling drop off and control the dropping off of non-accepted chemicals the following changes have been made.

- ❖ Supervised waste oil drop-off during the hours of 7:00 am and 2:00 pm on Mondays only.
- ❖ Disposal will require a DPW employee to assist you with the drop off. They will be looking for waste oil in a clearly labeled container. Any other chemicals shall not be accepted at our facility. Mechanics and other DPW personnel are located on the 1st floor rear of building at 277 S Maple Ave.

It should be noted that private service stations, as well as, Somerset County also accept waste oil. Locations can be found on the Somerset County web site.
